Section 1: Identification

Product identifier

Product Name
- STA-BIL® Ethanol Fuel Treatment & Stabilizer - Protection

Synonyms
- 584094

Product Code
- 22232; 22264; 22265; 22269; 22274; 22275; 22281; 22282; 22284; 22288; 22291; 22296; 22804; 22805; 22811

Relevant identified uses of the substance or mixture and uses advised against

Recommended use
- Gasoline fuel stabilizer

Restrictions on use
- Do NOT use in diesel fuel

Details of the supplier of the safety data sheet

Manufacturer
- Gold Eagle Co.
  4400 S. Kildare Avenue
  Chicago, IL 60632-4372
  United States
  http://www.goldeagle.com/

Telephone (General)
- 773-376-4400

Emergency telephone number

Manufacturer
- 1-800-535-5053 - (INFOTRAC #22283)

Section 2: Hazard Identification

United States (US)
According to: OSHA 29 CFR 1910.1200 HCS

Classification of the substance or mixture

OSHA HCS 2012
- Flammable Liquids 4
  Aspiration 1
  Specific Target Organ Toxicity Single Exposure 3: Narcotic Effects
  Carcinogenicity 2
  Reproductive Toxicity 2

Label elements

OSHA HCS 2012

DANGER

Hazard statements
- Combustible liquid
- May be fatal if swallowed and enters airways
- May cause drowsiness or dizziness
- Suspected of causing cancer.
- Suspected of damaging fertility or the unborn child.
Precautionary statements

**Prevention**
- Obtain special instructions before use.
- Do not handle until all safety precautions have been read and understood.
- Keep away from heat, sparks, open flames and/or hot surfaces.
- No smoking.
- Avoid breathing mist/vapours/spray.
- Use only outdoors or in a well-ventilated area.
- Wear protective gloves/protective clothing/eye protection/face protection.

**Response**
- In case of fire: Use appropriate media for extinction.
- IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
- Call a POISON CENTER or doctor/physician if you feel unwell.
- IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician.
- Do NOT induce vomiting.
- IF exposed or concerned: Get medical advice/attention.

**Storage/Disposal**
- Store in a well-ventilated place. Keep container tightly closed.
- Keep cool.
- Store locked up.
- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

Other hazards

**OSHA HCS 2012**

---

**Section 3 - Composition/Information on Ingredients**

**Substances**
- Material does not meet the criteria of a substance.

**Mixtures**

Section 4: First-Aid Measures

Description of first aid measures

**Inhalation**  
- Move victim to fresh air. Administer oxygen if breathing is difficult. Give artificial respiration if victim is not breathing. If signs/symptoms continue, get medical attention.

**Skin**  
- In case of burns, immediately cool affected skin for as long as possible with cold water. Do not remove clothing if adhering to skin. Remove and isolate contaminated clothing. Wash skin with soap and water.

**Eye**  
- Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing eye. Get medical attention immediately.

**Ingestion**  
- Do NOT induce vomiting. Get medical attention immediately.

Most important symptoms and effects, both acute and delayed

- Refer to Section 11 - Toxicological Information.

Indication of any immediate medical attention and special treatment needed

Notes to Physician

- All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.

Section 5: Fire-Fighting Measures

Extinguishing media

**Suitable Extinguishing Media**  
- Use carbon dioxide, dry chemical, foam and/or water fog.

**Unsuitable Extinguishing Media**  
- No data available

Special hazards arising from the substance or mixture

**Unusual Fire and Explosion Hazards**  
- Containers may explode when heated.  
- Vapor explosion hazard indoors, outdoors or in sewers.  
- Combustible material: may burn but does not ignite readily.  
- Many liquids are lighter than water.  
- Most vapors are heavier than air. They will spread along ground and collect in low or confined areas (sewers, basements, tanks).  
- Runoff to sewer may create fire or explosion hazard.  
- Vapors may form explosive mixtures with air.  
- Vapors may travel to source of ignition and flash back.  
- Water may cause frothing.

**Hazardous Combustion Products**  
- No data available

Advice for firefighters

- Structural firefighters' protective clothing will only provide limited protection. Wear positive pressure self-contained breathing apparatus (SCBA). Move containers from fire area if you can do it without risk.  
- LARGE FIRES: Cool containers with flooding quantities of water until well after fire is out.
Section 6 - Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

Personal Precautions
- Do not walk through spilled material. Use appropriate Personal Protective Equipment (PPE) Do not touch damaged containers or spilled material unless wearing appropriate protective clothing.

Emergency Procedures
- As an immediate precautionary measure, isolate spill or leak area for at least 50 meters (150 feet) in all directions. If tank, rail car or tank truck is involved in a fire, ISOLATE for 800 meters (1/2 mile) in all directions; also, consider initial evacuation for 800 meters (1/2 mile) in all directions. LARGE SPILL: Consider initial downwind evacuation for at least 300 meters (1000 feet) ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Keep unauthorized personnel away. Stay upwind. Keep out of low areas. Ventilate closed spaces before entering.

Environmental precautions
- Prevent entry into waterways, sewers, basements or confined areas.

Methods and material for containment and cleaning up

Containment/Clean-up Measures
- Stop leak if you can do it without risk. Absorb or cover with dry earth, sand or other non-combustible material and transfer to containers. Use clean non-sparking tools to collect absorbed material. A vapor suppressing foam may be used to reduce vapors. All equipment used when handling the product must be grounded. LARGE SPILLS: Dike far ahead of liquid spill for later disposal. LARGE SPILLS: Water spray may reduce vapor; but may not prevent ignition in closed spaces.

Section 7 - Handling and Storage

Precautions for safe handling

Handling
- Use only in well ventilated areas. Avoid contact with heat and ignition sources. Take precautionary measures against static charges. Do not use sparking tools. All equipment used when handling the product must be grounded. Wear appropriate personal protective equipment, avoid direct contact. Avoid breathing. Avoid contact with skin, eyes, and clothing. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco.

Conditions for safe storage, including any incompatibilities

Storage
- Store in a tightly closed container. Keep away from incompatible materials. Store in a well-ventilated place. Store in an area equipped with automatic sprinklers or fire extinguishing system. Store below 150º F. Empty containers contain product residues, assume emptied containers to have same hazards as full containers.

Section 8 - Exposure Controls/Personal Protection

Control parameters

<table>

</tr>
</tbody>
</table>

Exposure controls
Engineering Measures/Controls

- Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Use only appropriately classified electrical equipment.

Personal Protective Equipment

Respiratory
- In case of insufficient ventilation, wear suitable respiratory equipment. Follow the OSHA respirator regulations found in 29 CFR 1910.134. Use a NIOSH/MSHA approved respirator if exposure limits are exceeded or symptoms are experienced.

Eye/Face
- Wear chemical splash safety goggles.

Skin/Body
- Wear appropriate gloves.

Environmental Exposure Controls
- Controls should be engineered to prevent release to the environment, including procedures to prevent spills, atmospheric release and release to waterways. Follow best practice for site management and disposal of waste.

Key to abbreviations
ACGIH = American Conference of Governmental Industrial Hygiene
STEL = Short Term Exposure Limits are based on 15-minute exposures
NIOSH = National Institute of Occupational Safety and Health
TWA = Time-Weighted Averages are based on 8h/day, 40h/week exposures
OSHA = Occupational Safety and Health Administration

Section 10: Stability and Reactivity

Reactivity

- No dangerous reaction known under conditions of normal use.

Chemical stability
Stable under normal temperatures and pressures.

Possibility of hazardous reactions
- Hazardous polymerization will not occur.

Conditions to avoid

Incompatible materials
- Strong oxidants.

Hazardous decomposition products
- Excessive heating and/or incomplete combustion will produce carbon monoxide.

Potential Health Effects

Inhalation
- **Acute (Immediate)**: May affect the central nervous system. Symptoms may include dizziness, drowsiness, lethargy, coma and death.
- **Chronic (Delayed)**: No data available.

Skin
- **Acute (Immediate)**: Material is classified as non-irritant and non-corrosive using GHS criteria.
- **Chronic (Delayed)**: No data available.

Eye
- **Acute (Immediate)**: Material is classified as non-irritant using GHS criteria.
- **Chronic (Delayed)**: No data available.

Ingestion
- **Acute (Immediate)**: Material may be aspirated into lungs during ingestion and/or subsequent vomiting. Aspiration of this material will cause severe lung injury, chemical pneumonitis, pulmonary edema or death.
- **Chronic (Delayed)**: No data available.

Carcinogenic Effects
- Suspected of causing cancer. This product contains components that are considered carcinogenic by OSHA, IARC, NTP.

<table>

Section 12 - Ecological Information

Toxicity
- Non-mandatory section - information about this substance not complied for this reason.

Persistence and degradability
- Non-mandatory section - information about this substance not complied for this reason.

Bioaccumulative potential
- Non-mandatory section - information about this substance not complied for this reason.

Mobility in Soil
- Non-mandatory section - information about this substance not complied for this reason.

Other adverse effects
- Non-mandatory section - information about this substance not complied for this reason.

Section 13 - Disposal Considerations

Waste treatment methods

Product waste
- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

Packaging waste
- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

Section 14 - Transport Information

- Sweetened middle distillate 64741-86-2 Not Listed
- Anthraquinone, 1,4-bis(methylamino)- 2475-44-7 Not Listed

**U.S. - California - Proposition 65 - Maximum Allowable Dose Levels (MADL)**
- Distillates (petroleum), hydrotreated light 64742-47-8 Not Listed
- Naphthalene 91-20-3 Not Listed
- Ethylene glycol monobutyl ether 111-76-2 Not Listed
- Solvent naphtha 64742-94-5 Not Listed
- Sweetened middle distillate 64741-86-2 Not Listed
- Anthraquinone, 1,4-bis(methylamino)- 2475-44-7 Not Listed

**U.S. - California - Proposition 65 - No Significant Risk Levels (NSRL)**
- Distillates (petroleum), hydrotreated light 64742-47-8 Not Listed
- Naphthalene 91-20-3 5.8 µg/day NSRL
- Ethylene glycol monobutyl ether 111-76-2 Not Listed
- Solvent naphtha 64742-94-5 Not Listed
- Sweetened middle distillate 64741-86-2 Not Listed
- Anthraquinone, 1,4-bis(methylamino)- 2475-44-7 Not Listed

**U.S. - California - Proposition 65 - Reproductive Toxicity - Female**
- Distillates (petroleum), hydrotreated light 64742-47-8 Not Listed
- Naphthalene 91-20-3 Not Listed
- Ethylene glycol monobutyl ether 111-76-2 Not Listed
- Solvent naphtha 64742-94-5 Not Listed
- Sweetened middle distillate 64741-86-2 Not Listed
- Anthraquinone, 1,4-bis(methylamino)- 2475-44-7 Not Listed

**U.S. - California - Proposition 65 - Reproductive Toxicity - Male**
- Distillates (petroleum), hydrotreated light 64742-47-8 Not Listed
- Naphthalene 91-20-3 Not Listed
- Ethylene glycol monobutyl ether 111-76-2 Not Listed
- Solvent naphtha 64742-94-5 Not Listed
- Sweetened middle distillate 64741-86-2 Not Listed
- Anthraquinone, 1,4-bis(methylamino)- 2475-44-7 Not Listed

Other Information

Preparation Date: 15/October/2014
Revision Date: 09/September/2015

Format: GHS Language: English (US)
